

Javits

The Jacob Javits Gifted and Talented Education Act provides federal funding for research into how to best identify and serve gifted and talented students and the creation of demonstration programs through the Jacob K. Javits Gifted and Talented Students Education Program (Javits Program). The program emphasizes identification of and services for traditionally underrepresented students including economically disadvantaged, English language learners, and disabled students. To learn more about the Javits act please click [here](#).

In New Jersey, we can benefit from the research provided by the [National Center for Research on Gifted Education](#) at the University of Connecticut as a recipient of Javits grants.
